

## **Freedom Star Block #1**

**January 4, 2010**

## **Snowflake Star Block**

We start off January with this 12" x 12" finished SNOWFLAKE STAR block easily made with paper-piecing pattern provided. You will need to also the PDF download for the paper-pieced pattern.

Make one square-in-a-square center unit and two of each side units, following the colors in the picture or use your own.

Follow the block diagram and sew all five paper-pieced units together to get the central square.

Use the template provided to cut the four corner triangles or for an easier method, cut two 7 1/2" squares from background fabric & re-cut the squares across the diagonal to get four triangles.

Sew these to the corners of the inner square to finish the block.
