

Freedom Star Block #14

April 5, 2010

April Star Block

Freedom Stars Colors

Spring Colors

12" x 12" Finished

This April Star Block #14 is similar to the Diamond Star Block #6 that we made earlier. But here the corner star points are longer and more pronounced than the smaller side points and made up of one single fabric not two.

I have shown this block in two color ways, one with the Freedom Star Blocks colors of red, gold/ white and blue and also spring colors. You of course, can choose to make up this block in your favorite colors!

You will have to print out the paper-pieced PDF Pattern and make a total of four copies.

To help with color placement:

A1 is the larger star point color (blue)

A2 and A3 are the background color (pale yellow or white)

B1 is the smaller star point color (red)

B2 and B3 are the background color (pale yellow or white)

Stitch out four of each section (A & B). It may help if you follow the color photos.

First sew each set of two sections (A & B) together to make four larger sections.

Then sew two of the A/B - A/B sections together to get one half of the star.

Next sew both halves of the star together to make the complete star.
